To find info in Dynamed:
- Type a term in the search box, or
- Browse like an encyclopedia using the A-Z list, or
- Browse categories

Click on a term to see the full information, or you can go directly to the Treatment (Tx) or Diagnosis (Dx) section.

The full record includes menus so you can jump to a particular section.
You can set up alerts to be notified when this topic is updated.
Click on Recent Updates to view any topic that has recently changed.

Check the box for Practice Changing Updates to limit this list to topics where an update will affect practice.

You can also set up alerts to be notified when updates are added to Dynamed.

Click on Calculators to find calculators, dose converters, decision trees, and

This is an example of a Decision Tree. It also includes a reference for more information.
